

## The reason that why you will go for solar power

1. Get control over utility costs
2. Start saving with zero down payment
3. Get predictable energy rates for years to come
4. Earn referral awards with solar reference program
5. Save more money for the things you care about

Utility rates tend to rise unpredictably in many markets all over the country. Thanks to innovations in solar technology and financing, it's now more affordable for homeowners, business houses, schools, industries, non-profits and government organizations to switch to solar power.

Please find the below graph which will give you information that why you will go for solar power to get control over utility costs:

(Note: The below data has taken from the past and proposed tariff of the utility companies)

<b>Sr. No.</b>	<b>Year</b>	<b>Rate per unit</b>	<b>Solar Bizlee Rates (if started from 2007)</b>	<b>Solar Bizlee Rates (if starts from 2016)</b>
01.	2007-08	5.6	3.92	-
02.	2008-09	7.5	4.03	-
03.	2009-10	8.1	4.15	-
04.	2010-12	8.4	4.39	-
05.	2012-15	10.91	4.77	-
06.	2015-16	13.01	4.9	-
07.	2016-17	13.73	5.04	9.60
08.	2017-18	14.44	5.18	9.87
09.	2018-19	15.16	5.33	10.15
10.	2019-20	15.87	5.48	10.44
